

SUMMARY

Full Stack Developer with hands-on experience building scalable MERN-stack and React Native applications. Delivered AI-powered healthcare platforms, real-time IoT dashboards, and cloud-deployed business solutions. Proficient in REST API development, JWT authentication, Redis caching, and AWS cloud infrastructure. Seeking full-time SDE/Full Stack roles.

SKILLS & ABILITIES

- Frontend: React.js, React Native, Tailwind CSS, Responsive Design
- Backend: Node.js, Express.js, REST APIs, JWT Authentication
- Databases: MongoDB, PostgreSQL, Redis
- Cloud & DevOps: AWS (EC2, S3, IAM), Docker, Cloudflare Workers, Firebase
- Languages: JavaScript, TypeScript, Python, C++, Java
- AI/ML & Other: LangChain, Gemini API, Socket.io, Git/GitHub

EXPERIENCE/PROJECTS

FREELANCING

1. Online Business Ordering Platform — Feb 2026
 - Developed a full-stack website for [Godavari Publication](#) using React.js, Node.js, and Cloudflare Workers to enable online product ordering.
 - Implemented responsive UI, order management, and cloud deployment for scalable business operations.
2. Real-Time IoT Dashboard — Apr 2026
 - Developed a real-time IoT monitoring dashboard using React.js and Firebase for live sensor data tracking, synchronization, and visualization.
 - Designed interactive dashboards for real-time sensor analytics and dynamic data monitoring.

INTERNSHIPS

1. **React Native Developer** Intern
Medygharcarehub | Remote | Dec 22, 2025 – Present | [Link](#)
 - Designed, developed, and maintained cross-platform mobile application features using React Native.
 - Created reusable, scalable, and performance-optimized UI components following best practices.
 - Integrated REST APIs and handled dynamic data rendering.
2. **Full Stack Developer** Intern
BucketStudy | Remote | Dec 03, 2025 - Jan 04, 2026
 - Designed and developed responsive user interfaces using React.js.
 - Created scalable backend services and APIs using Node.js and Express.js.
 - Worked with MongoDB for database design, CRUD operations, and data handling.
3. **AIML with Data Science** Intern
YBI Foundation | Remote | Dec 23, 2024 - Jan 23, 2025
 - Developed a **Movie Recommendation System** using **Machine Learning techniques**
 - Implemented **content-based filtering** to suggest movies based on user preferences
 - Performed **data preprocessing, cleaning, and feature extraction**

PROJECTS

1. Medflow AI (8th SEM) | Hackathon project at SGGGS Nanded | Tech Stack: MERN, React Native, Firebase, Redis cloud
 - Built an AI-powered healthcare platform with medicine ordering, prescription extraction, appointments, and video consultation features.
 - Developed an admin dashboard for inventory, order, and stock management.
2. [Digital Notice Board with IOT updates](#) (7th SEM) | Hackathon project at VIT Pune | Tech Stack: MERN, Socket.io, IOT
 - Developed **65% of frontend and backend** for a real-time digital notice system with **Admin & Display portals**.
 - Implemented **authentication**, centralized database, and **live updates using Socket.io**.
 - Completed within **3 days**; secured **7th place out of 250+**, leading to an **internship opportunity**.
3. [Recycling Tips and Tricks](#) (6th SEM) | Tech Stack: MERN Stack) [GitHub Link](#)
 - Independently built a **full-stack blog platform** for sharing and engaging with recycling and sustainability content.
 - Implemented user-friendly UI, CRUD operations, and secure data handling

EDUCATION

B.E. in Computer SITRC Nashik CGPA 8.15	2022-26
12 th Grade KTHM College Nashik 62.33%	2021-22
10 th Grade S. S. V. Madhyamika Vidyalaya 86.4%	2019-20

CERTIFICATIONS: Infosys Springboard (CSS3, TypeScript, UX), FreeCodeCamp – Backend Development & APIs
